## SOCIETY

How many of us pick up a daily paper, read all there is in it, drop it, and scornfully say: "That paper is not worth fiddlesticks. There's nothing in it."

But remember, if things don't happen, you can't make them, so if you want a lot of news, stir things up, see that there is something doing; then report to some member of the office staff. We are always glad to hear of anything new, and to hear it first. See to it that we do so; won't you?

If you could only see how the editors, and particularly the society editor, work their brains sometimes to please the public, you would sympathize with them.

I once knew an editor of a paper in a little country town, who went to a city and saw the bulletin boards of the great dailies. On his return home, he thought he would "start something." There was a deacon very ill, so the editor decided to put up a board, and this is what he had on it:

9 a. m.—Deacon Jones dangerous-ly sick

9:55 a. m.—Doctors are now in consultation.

10:15 a. m.—Doctors have given up all hope.

10:30 a. m.—Deacon Jones is dying.

12 m.—Deacon Jones is dead, and departed for Heaven.

Along about 1 o'clock, some bad boy slipped up and added the following:

1 p. m.—Great excitement in Heaven. Deacon Jones has not arrived.

The reception will be held in Governor Willson's private office and marks a new epoch in political history in Kentucky.

Justice Harlan is popular among the negroes and his recent dissenting opinion in the case of the Commonwealth of Kentucky against the Berea College and in which he holds for mixed schools of whites and negroes has greatly strengthened his popularity until he has become the idol of the negroes in the South.

Delegations from all of the largest cities in Kentucky east of Louisville are expected to be present to welcome Judge Harlan back to his old home.
